

Reginald Leatherberry

Electronics Technician

Electronics Facility

Kenan Labs C249

919-966-1359

Technical Responsibilities

Design, construction and repair of scientific instrumentation. Instrumentation is used in a variety of activities, including NMR, mass spectrometry, UV-VIS and laser spectrophotometry, electrochemistry, and fluorescence spectroscopy, among others. Special technologies include design of interlock systems, timing circuits, and analog circuitry.

Education

Associates Degree, Electronics, Durham Technical Community College

Professional Background

US Army, C 3/7 199th Inf BDE, 1964-1967

UNC Chemistry Department, 1969—present

Awards

Soldiers' Medal, Decoration for heroism, Ft. Bragg, NC, December 13, 1968
